Re: Incidental Drilling Project
Coastal States Energy Company
Skyline Mines
Act/007/005, Folder #3
Carbon County, Utah

Dear Mr. Haddock,

Our incidental drilling project has been completed. An accompanying map and table describes the pertinent information for location and depths of the drillholes. Due to the difficulty of drilling through the unconsolidated fill, only one hole was cored. The core from this hole was not chemically analyzed but saved for future study.

If I can be of further help in this matter, please do not hesitate to contact me.

Sincerely,

Wendell A. Koontz
